PARDÁL CZECH LAGER

Brewed by the People. For the People.

Budweiser Budvar has brewed the finest Czech lager in the world, made using local ingredients and aged to perfection in their cellars in České Budějovice, South Bohemia. The brewery is still owned by the people of the Czech Republic.

Budvar's session lager, Pardál, is brewed using the soft water from Budvar's 10,000-year-old well. The renowned brewery, with a view to breaking the mould of typical Czech lager, formed a panel of three hundred consumers to define the character of the beer as well as the values of the brand.

Pardál takes 11 days to brew which is significantly longer than most lagers. Then it undergoes a 30-day maturation process making it an easy-drinking lager with a full mouthfeel and a bitter but well-balanced taste. Pardál is unique, with a sessionable ABV of 3.4%, but more flavour than many 4 or 5% beers.

BUDVAR CZECH LAGER

Every drop of Budweiser Budvar lager is slowly brewed in České Budějovice, or Budweis as it's known in German. This makes our beer a true Budweiser, literally a lager brewed in the city of Budweis (not like other beers that call themselves a Budweiser, but that's another story...). So important is this Czech provenance, that Budweiser beer has Protected Geographical Indication status in the European Union, like Champagne or Cognac, meaning it's illegal to produce it any where else.

Budweiser Budvar is proudly owned by the Czech Republic, a nation universally renowned for the quality of its beer. Our beer is a product of the country's diverse geography and geology, its fertile soils and perfect climate. So it's made using the best ingredients in the world. Rare and rich aromatic hops from the Saaz region. Sweet barley from the plains of Moravia. Pure water from our ice age wells. But being state-owned means more than just being about where you're from. It's also about our approach to brewing and the things we value. For us, that means acting like a country, not a corporation. Putting provenance over profit and brewing over business. Only then will we delight our nation of stakeholders.

BLACK SHEEP SMOOTH

Black Sheep Brewery was founded in 1992 by Paul Theakston after the brewery run by his family for five generations was sold to a national brewer. Determined to remain fiercely independent, Paul forged his own path, becoming the 'Black Sheep' of the family and establishing a new brewery in the very same Yorkshire town of Masham.

Built on more than 200 years of brewing heritage, Black Sheep was born from a family rebellion and a passion for brewing proper beer, done properly. Brewed using the finest ingredients and fresh Yorkshire Dales water, Black Sheep Smooth is a vegan-friendly English Bitter with a smooth, easy-drinking character.

Combining Yorkshire provenance, brewing heritage and a distinctive independent spirit, Black Sheep is a smooth addition to the Signature Brands flock!

BIRRA MURANO

Inspired by the Venetian island of Murano, Birra Murano takes its cues from a destination renowned for its heritage, craftsmanship and slower pace of life. Along its charming streets, artisanal glass blowers create intricate works of art while traditional pizzerias and cafés embrace the Italian philosophy of ‘the sweetness of doing nothing’.

Founded on an appreciation of these simpler pleasures, Birra Murano is brewed using just four simple ingredients: hops, barley, water and yeast. Clean, crisp and refreshing, it combines a gentle bitterness with subtle citrus notes and a smooth malt character, delivering all the hallmarks of a traditional Italian pilsner.

Inspired by the sun-drenched charm of its namesake island, Birra Murano brings a taste of Italian style and relaxed Mediterranean drinking culture to any venue.

LUCKY BUDDHA

The Laughing Buddha is the image of Budai, a Chinese Zen monk who lived more than 1,000 years ago and dedicated his life to spreading happiness and joy. Today, that spirit is reflected throughout the Lucky Buddha brand, from the distinctive bottle shape to the symbols of good fortune decorating the glass.

Lucky Buddha combines quality malt, hops, rice flakes and pristine water from China's Thousand Island Lake. Rice, malted barley and Czech Saaz hops come together to create an Asian-style lager with plenty of flavour and a crisp, clean finish.

Although we couldn't bring the waters of Thousand Island Lake to the UK, our draught offering is brewed to the same recipe as the original.

DORTMUNDER BEER

Dortmunder is a range of premium, authentic German beer with a long and rich history, originating in the Struck Brewery in the industrial city of Dortmund back in 1873. That year, the brewery became a stockholder company, Dortmunder Union-Brauerei Actiengesellschaft, building its early reputation on a deep golden beer brewed with skill and precision – known as Dortmund Export.

As the brewery grew alongside Dortmund's booming industrial landscape, its brewers refined their craft further, giving rise to the now-iconic Dortmund Union – a pale, Pils-style beer prized for its clean, refreshing taste. Both beers became firm favourites among the workers of Germany's industrial heartland, cementing Dortmund's place as a brand defined by craftsmanship, heritage, and quality that continues today.

Variefies

DORTMUNDER UNION PILS - ABV 4.8% | 50L KEG

Gold in colour with a moderate bitterness, Dortmund has a lean and attenuated body but is full of character, packs of flavour and has a beautiful crisp finish. Like all Dortmund beers, Union Pils is brewed to strict German Beer Purity Laws and made with nothing but pure malt, Hallertau hops and Dortmund Water.

DORTMUNDER VIER - ABV 4.0% | 50L KEG

A more sessionable alternative to Dortmund Union Pils, Dortmund Vier is brewed according to the German purity order. It's a 4% ABV premium sessionable pilsner and is vegan-friendly. Gold in colour with a balance of bittersweet hops and malt bitterness from the Noble hops. A lighter and more refreshing expression, Dortmund Vier has a beautiful, crisp finish.

GALWAY IRISH STOUT

Galway Hooker has been brewing on the west coast of Ireland since 2006.

We were behind the original Irish Pale Ale, helping kick off the modern craft beer movement in Ireland. Since then, we've built a reputation for making straightforward, high-quality beer that does exactly what it's meant to do.

Everything we brew is made with natural ingredients – water, malt, hops and yeast, with no preservatives. The focus is always the same: full flavour, balance, and consistency in every pint. Nothing too heavy, nothing too bitter — just a well-balanced pint and a great alternative to Guinness. Brewed with nitrogen for a soft, velvety texture, this is a lighter take on a traditional stout.

During the 1920s, Prohibition came into effect across the USA, making the manufacture and sale of alcohol illegal. Illegal alcohol production increased during this period, driven by continued demand and the profits available from the black market. This was largely fuelled by moonshine; home-brewed alcohol made in secret and often produced at night under the cover of darkness to avoid detection, guided by the light of the moon.

Spotlight: **MARLISH WATERS**

Marlish Farm is a working mixed grazing farm, nestled in the Northumberland Hills, owned and run by cousins Joe and Elizabeth, and the home of Marlish Waters.

Over 80 years ago our family arrived, to farm the land at Marlish using the outstanding spring water sourced from the ground beneath them to feed their animals and crops. Fast forward to present day and we have unlocked this resource, creating a unique range of drinks from our production facility in the heart of Northumberland, bottled and canned at source to preserve the unique taste and pure quality.

Our journey began back in 2013 when we installed a bore hole as a sustainable water supply for the grazing animals at Marlish Farm. We spotted a market for a regional independent spring water brand, so we had the water tested and traced its catchment area. The results were good as we had tapped into a historic underground aquifer, a completely sustainable resource which is naturally replenished by rain water falling on the Northumbrian hills, taking hundreds of years to naturally filter through the rock strata, gaining its high level of purity and mineralisation along the way. We built a factory on the farm so that all our products could be packaged at source to reduce our footprint on the environment and preserve the purity of our water.

MARLISH FLAVOURED SPARKLING WATER

Marlish sparkling flavoured spring waters, are sustainably produced and packaged using 100% renewable energy at the source of a spring on Marlish Farm in Northumberland. Using spring water as the basis these sparkling flavoured drinks, Marlish are committed to combining it with only the finest natural ingredients.

Marlish has researched and developed all the flavours for this sparkling soft drinks range in-house. As there is no added sugar in these drinks, Marlish work to ensure all the flavours stand out on their own, by hand selecting and extracting essence from the best ingredients, including traditional British flavours like blackcurrant, raspberry and elderflower, alongside tropical orange and lemon. Marlish flavoured sparkling drinks are all sugar-free, low calorie and free from artificial preservatives.
